

Competitor Comparison

Volvo FH12

Competitor (low cost)
OE no. 3979599

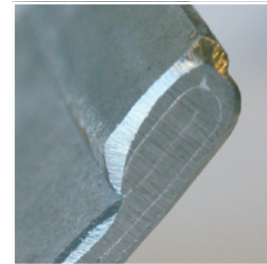

Dinex no. 80451 (low cost of 80401)
OE no. 3979599

Polish competitor

Dinex: Reinforcement around the inlet pipe

Polish competitor

Dinex: Stronger closing of the lockseam

Dinex is pleased to inform that we have made a competitor comparison between Dinex and a Polish competitor on our well known silencer 80451 for Volvo FH12.

The Dinex silencer supplies better attenuation in the whole attenuation spectrum. Furthermore, the internal construction of our silencer ensures longer lifetime and reduces vibrations. The Polish silencer is made without extra reinforcements around the inlet pipe and also the lockseaming results in a worse closing.

Polish competitor

Dinex: Stronger brackets to the heat shield
