Dinex Exhaust Assembly Paste

Dinex is pleased to offer to our Customers the Dinex Exhaust Assembly Paste which is a high quality sealant for efficient leak-proof exhaust systems.

The Dinex Exhaust Assembly Paste is applied during assembly of the exhaust system and also assists with joint lubrication in the assembly process.

- Supplied in a 500g cartridge as a ready-to-use paste
- Cartridge fits into a standard dispenser gun
- The paste forms a permanent gas-tight seal after setting with heat from the exhaust system
- Withstands extreme temperatures of 1000°C
- Provides carbon-monoxide proof joints on all exhaust systems
- Vibration resistant and lasts for years

Part no. 78800
